Education

S. G. Balekundri Institute of Technology

B.E (Computer Science and Engineering) - CGPA-8.3

Aug 2017 - July 2021

Belgaum, Karnataka

EXPERIENCE

TCS - American Express

Assistant System Engineer

Aug 2021 – Jan 2023

Bengaluru, Karnataka

- Performed live demos to customers and nurture client relationships.
- Trained and mentored incoming engineers to meet standards and protocol expectations.
- Developed high quality robust, modular and scalable code to meet the business requirements using Javascript and ReactJs.
- Applied advanced knowledge of programming languages and development tools to deliver critical features within the deadlines.
- Current Focus on building global markets for Corporate Digital Application Capture (CDAC) using the One-App framework.
- Worked to enhance business applications through thoughtful modifications and system changes.
- Actively participating in code reviews/pull requests while focusing on productive feedback.
- Supporting engineers across our teams with any coding challenges, defects, or general questions.
- Presented thorough study and evidence (proof of concept) supporting the ideas behind new internal frameworks.

PROJECTS

Portfolio Website | HTML, CSS, Javascript, React, Redux

[GitHub](#)

- Build and deploy a modern portfolio website with designs and ability to send email, download resume and redirect to social media sites.
- React best practices such as folder and file structure, hooks, routing and many more.
- Display about, experience and contact sections.
- Responsive and works on devices with different resolutions.

E-Commerce Cart | HTML, CSS, Javascript, React, Redux.

[GitHub](#)

- Modern e-commerce cart using React and Redux with functionality to add and delete food items to and from the cart.
- Implements state management of the entire application using Redux.
- Uses bootstrap and material UI to create cards and icons
- Implements react router to serve different pages for different sections.

Blog-Site | HTML, CSS, Javascript, React, Redux.

[GitHub](#)

- Build a blog site using ReactJS, Redux.
- Navigates to different pages such as home, about, write.
- Currently working on building about, contact, login and register page functionality.

TECHNICAL SKILLS

Languages: HTML/CSS, JavaScript, ReactJs, Redux.

Developer Tools: VS Code, IntelliJ.

Technologies/Frameworks: Jenkins, GitHub, ECP (logs), XLR, Splunk.

Agile Tools: Rally (Kanban and story board), Confluence (Documentation).

ACHIEVEMENTS AND AWARDS

- “On The Spot” Award by TCS for critical feature deliveries.
- Voted MVP of the team for multiple sprints.
- Participated in Smart India Hackathon 2020, where developed application to track the progress of government projects running under smart city mission.
